

## Hotel VESNA TERME TOPOLŠICA

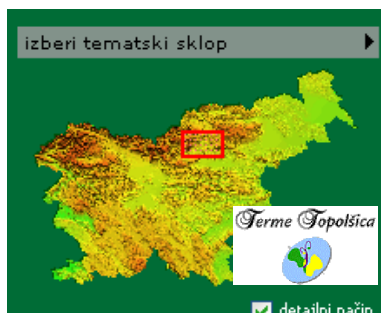

At **Terme Topolšica** you will wrap yourself in pure nature. Already in the previous century, a favourable geographical position and mild climate (many sunny days and fresh mountain air) paved the way for the development of a cosmopolitan spa - a jewel in the midst of nature. Today, Terme Topolšica has grown into a **modern recreation, spa and catering complex**.

With its natural resources and well-developed spa tourism, Topolšica has written a story in green and blue - a story that must be read in its place of origin - in Topolšica!

You will see no industry, transit roads or railway network here. **Our air is fresh and pure**, so do not hesitate to take a long, deep breath.
